Silver Lake Resident

**RE: CONTRACT EXTENSION
WITH ENHANCED RECYCLING**

Dear Silver Lake Resident,

The Village of Silver Lake and Kimble Recycling & Disposal Inc. (Kimble) have agreed to a 5 year contract extension, effective April 1, 2019, for residential refuse and recycling services to be provided. With the contract extension to Kimble, a local family-owned business, the same service guidelines remain in place for refuse collection, however there is a significant enhancement to the recycling collection service. Each active Kimble customer can now receive a Kimble supplied 65 gallon two wheeled recycle cart for their use at no additional cost. The enhanced service is designed to make collection easier and safer, reduce on the job injuries, provide cleaner neighborhoods, increase the volume of recycling, and stabilize long term disposal costs.

If you currently do not have a Kimble supplied 65 gallon recycle cart, and you would like one, please contact Kimble to arrange for the delivery to your residence.

The use of the new recycle carts will make recycling easier, with less litter occurring on windy days. There is no longer a need to bundle your newspapers, cardboard, or any other materials separately. All recyclable materials can be placed together loose (no need to bag) into your new recycle cart as a "single stream" of recyclable material. The individual components of the mixed recyclable materials or "single stream" will be segregated and prepared for market at our Kimble recycling facility in Twinsburg Township. Enclosed is a list of items that can be placed in your recycling cart to be recovered and returned to markets.

A list of the various service options and rates offered to the residents of Silver Lake is located on the back of this letter.

All of us at Kimble are pleased to have the opportunity to continue providing quality service to the residents of Silver Lake. If you wish to request a recycle cart or have any question regarding your refuse and recycling service, please contact Customer Service by phone at 1-800-201-0005, live chat on our website at www.kimblecompanies.com or email at customerservice@kimblecompanies.com.

Sincerely,

Your Kimble Service Team

Silver Lakes Rates for Service
