

Press Release

2022 Native Plant Sale

ORDERS AND PAYMENT DUE BY MARCH 27TH!

2022 Native Plant and Tree Offerings

Summit Soil and Water Conservation District is once more offering separate bundles of native plants for sale. These bundles each contain 3 plants of the chosen species and the minimum order is one bundle containing 3 plants of the same species.

The herbaceous plants include some of our iconic woodland spring ephemerals and come in the form of bare roots and corms just out of dormancy and are less fragile, so the plants are easy to handle and plant right away when the ground is still soft in early April.

The trees and shrubs are bare-root seedlings and should also be planted promptly to assure successful growth. If adding mulch when planting your trees and shrubs be sure not to place mulch around them any closer than 6 inches from the stem or trunk. This will help to prevent disease, insect infestation, and smothering of the roots.

Remember that when you plant these natives you are helping thousands of species of pollinators and other wildlife, while restoring and sustaining your own ecosystem.

You may call 330-926-2452 for more information on the plants or any questions that you may have. You can view descriptions and characteristics of the native plants and some pollinator information which may help you decide how to plan your planting arrangements to attract certain pollinators and wildlife, by going to our website at: <https://sswcd.summitoh.net/featured/2022-tree-shrub-perennial-sale>.

Plant Native Plants for Stormwater Quality in Our Watersheds!

You can help restore Ohio's native vegetation and improve the water quality and health of our lakes and streams by including a Native Plant Garden as part of your landscaping plan. The Summit Soil and Water Conservation District is offering native plant kits for sale again this spring, in 2022. Each kit contains 50 native plant plugs and costs \$150.00. There are 4 types of kits available, with 10 varieties of native plants in each kit. Substitutions of alternate species may be made without notice if necessary.

To find out more about the Native Plant Kits and how to order, go to our website at: <https://sswcd.summitoh.net/featured/2022-native-plant-kit-sale>.

If you would prefer to send in a paper order, please call Summit SWCD at 330-926-2452, or 330-926-2445, and we will be happy to send one to you.

####
